The most credible is the one that points the finger at too high a number of inhabitants. Never make them, and the third mission - very easy to complete - will give you two times out of three a lunchbox. A variant that could have quickly turned out to be boring, but rather well done by Bethesda. In this test, the game also crashed once after passing the 42 inhabitants bar. This causes frustrating echoes. There's no way to turn it back on, there's no way to reproduce it. No Game of Thrones. The Express Even worse: the bug that completely blocks the game. Then annex rooms to store equipment, take care of the inhabitants, improve their abilities and "increase" their happiness. An evil that is likely to cost dear to Bethesda, which does not seem to be in a hurry to make an upgrade and prefers to focus on the release on Android. Unfortunately, no patches. They will bring back, depending on their level, money, weapons and armor. Shit, what, isn't there a picture? Yeah, your interns can get pregnant... It's a matter of point of view. Fallout Shelter is well done and you almost always have something to do. A avalanche of bugs: a patch, fast But if the first few minutes run smoothly, the more the shelter develops, the more they appear. Message posted on December 31, 2017 À 19:03:54 am I had 4950 capsules in one shot from him, it's the maximum and I was well done Especially since I started the game a week ago so I'm very far from having a good performance tune Fallout Shelter is a real box. I recommend playing with headphones or headphones, so it will be easier to locate it. Thanks to these bonuses, you can build a shelter in two hours that normally takes about ten hours of play. Pregnant women may be completely blocked in Piece - less to redeem the game. Does the mystery draw even in rooms without energy? I also sold 10,240 clothes and weapons... When you see that sometimes you have to collect only 1000 energy in 1min for a handy mister who is not balanced ^\_^ and this mystery is promoting or pretending to work? What happened to me while I had 45 inhabitants. Happiness in disgrace: Lunchbox free but among all these bugs, you will give smile. You can also be in the lifts id little Filou. Theories about the cause of this racoon are numerous.
